

California Education Partners Home

**We believe
that people working in our
school systems are the ones who
are most capable of improving
outcomes for all students.**

Our Mission

California Education Partners seeds and grows collaborations among California's school systems, so that they innovate, improve, and build internal capacity as learning organizations in order to close gaps and lead high performing, equitable schools that serve all students well for the 21st century.

California Education Partners facilitates collaborations in order to build educators' capacity for change.
