We believe that people working in our school systems are the ones who are most capable of improving outcomes for all students.

Our Mission

California Education Partners seeds and grows collaborations among California’s school systems, so that they innovate, improve, and build internal capacity as learning organizations in order to close gaps and lead high performing, equitable schools that serve all students well for the 21st century.

Our Promise

We promise participating districts that at the conclusion of three years of collaborative, continuous improvement work with California Education Partners, districts and their schools will have the skills and knowledge to further develop, execute, and spread a sustainable improvement approach that is contextually driven and that quantifiably improves student outcomes.

California Education Partners helps districts and their schools develop systems of continuous improvement and offers opportunities for California districts to work together.
